

124 Years Before the Navy Mast : The Patten Family

The Patten brothers sailed the seven seas in the service of their country for 124 years. By choice, they performed their yeoman role in guiding the destinies of the great ships they served. The Navys largest family of eight brothers and their father were a banner of patriotism promoting war bonds and recruiting fellow sailors...all to support the battle to achieve and maintain liberty, freedom and justice. The Iowa Patten brothers served patriotically in World War II. Six were on the Nevada (BB-36) next to the Arizona when Japan attacked Pearl Harbor on December 7th, 1941. Later, they served on the aircraft carrier Lexington (CV-2) in the Battle of the Coral Sea on May 7-8, 1942. This saga fuses history and genealogy in a scholarly manner using meticulous research with engaging storytelling including and account of their ancestors coming to America, orphan trains, life during the Depression, and Navy episodes and escapades. The book intertwines family lore narratives with historical battle accounts to amplify and understanding of history and the Patten family. This is a heartwarming story recounted with authority, insight and scholarship.
