

Half-Hours in Southern History (Classic Reprint)

Excerpt from Half-Hours in Southern History This is a book of sketches and might be entitled, A Sketch Book of Southern History. It aims to give in brief outline the salient features of Southern heroism and achievement, and to state rapidly the South's side of the long controversy between the sections. The author has tried to be fair, candid, and truthful. Extremists of either section will not like the volume. The fact that he is a Southerner, however, the author will attempt neither to palliate nor to deny; but he has aimed to write with malice toward none, with charity for all. The facts stated in this volume have been gathered from a thousand sources; none have been manufactured. Of Southern civilization, the author speaks from experience, as he remembers vividly two generations that represented the Old South so-called. The work is a labor of love; its object, justice to all.
