Not illustrated. 1876 Excerpt: ...\$ he had plotted, it was said, the assassination of the principal noblemen of the council--Northumberland, Northampton, Pembroke, and others; a revolt was at the same time to be fomented in London, and the duke was to take possession of the kings person. This time the prisoner was publicly conducted to Westminster Hall, to be tried by his peers, that is to say, by the councillors of the king, whom he was accused of having intended to assassinate; but he was not confronted with the witnesses against him, the prosecutors contenting themselves with reading to him their depositions. He confessed to murderous designs against his powerful enemies, but these he had abandoned, he said, and he absolutely denied any intention of rebellion or insurrection. He was accordingly acquitted upon the count of treason, but the count of felony was proved, and this sufficed to ruin him. The people, who thronged in the Hall and the streets, did not understand the sentence; the axe, which had been borne before him so long as he was accused of high treason, had disappeared from the procession; they cried out that the good duke had been acquitted, and the favor of the population of London did not incline Northumberland to show mercy. On the 22d of January, 1552, six weeks after his condemnation, less than five years after the day on which he had made himself master of the supreme power, the former Protector of England was conducted to that scaffold so often bathed in the most illustrious blood. He died with more resolution than he had shown during his life, his young nephew, convinced, it is said, of his crime, having made no effort to show mercy to him. Somerset no doubt called to mind on

Tower Hill the brother whom he had formerly sent to the same fate. Four of his friends only ...
