

The College Adventure

It is the web which we weave when we first begin to deceive. Everybody has cobwebs in dark closets in their lives. This sequel to The RSA adventure - The untold story now revealed now goes back in time to the events which David wrote about in his journal when he became a resident in the same nursing home where he had worked for the past thirty-five years. This time the events were written in time from the point of view of Janet and Steve who were security guards at the towns University. For every story there is always another side of that story. These events were like an exciting roller coaster ride loaded with tons of surprises and of course this ride ends in a way which no one could ever predict. I dare you to come along for the ride of your life. Revisit the events of the first book and experience them in a different way. Yes, the web which we weave when we first start to deceive.
