

After the Affair

Why is it that we always think it will never happen to us? We tend to believe that we are the exception. Most of our lives, we dream of falling in love with the perfect man and living happily ever after. What actually happened to that concept or was it truly a fairy tale? Has life become so complex that it forces us to live an illusion? We finally find Mr. Right -- he is perfect. We are so in love with this man that we allow him to enter the deepest recesses of our hearts and minds only to discover that we are not the only love of his life -- he is sleeping with another woman. This book gives insight on what to do when infidelity has occurred in the relationship. What happens after the affair has been discovered? It assists with working through vital stages of the healing process. Then you are given an opportunity to examine significant questions about your relationship in order to regain control of your life. Subsequently, the focus is on next steps within the recovery mechanism. Life is too short to live in deceit and too dangerous when a woman experiences an outburst of uncontrollable rage. She is a force to be reckoned with. Therefore, all battles should be chosen carefully. After all, the difference between sanity and insanity is relative.
