

The Pilgrims Way from Winchester to Canterbury (Illustrated)

This book is an illustrated version of the original *The Pilgrims Way from Winchester to Canterbury* by Julia Cartwright. The author himself walked along the ancient track, and succeeded in filling up many gaps where the road had been lost, and in recovering almost the whole of the Way, yard by yard from the capital of Hampshire to the capital of Kent. This intimate knowledge of the road and its characteristics have led him to make several alterations in the line of the Way marked on the Ordnance Map, which had hitherto served as the basis of most descriptions. But as Mr. Belloc himself recognises, it is clear that pilgrims often left the original road to visit churches and shrines in the neighbourhood. Thus, in several places, new tracks sprang up along the downs to which local tradition has given the name of the Pilgrims Way, and which it is not always easy to distinguish from the main road. Like Bunyans pilgrims, when they came to the foot of the hill Difficulty, one turned to the left hand, and the other to the right, but the narrow way lay right up the hill.
