

Angel Heart

Angel Heart is a lavish mix of romance, adventure, and a hint of the supernatural, largely set in France against the turbulent background of Napoleons return from Elba.

Devonshire, January 1815. Marie-Ange, the young widow of an English officer, accepts an inheritance in France only to find that everything in Beauregard is not as it seems. Why is the sinister Malleval so obsessed with her family? And could her darling Christopher still be alive? Marie-Ange finds herself trapped in a dangerous web of lies, intrigue, and mystical possession, and the only person to whom she can turn for help is Capitaine Hugo Saintclair. Yet the enigmatic Hugo represents a danger of a different kind
