Excerpt from The Works of John Adams, Vol. 1: Second President of the United States; With a Life of the Author, Notes and Illustrations No person will be apt to imagine that in an undertaking so extensive as this, it is possible for the closest observer to escape without making many mistakes. Some of these belong to the typographical department, and can be easily corrected. Others and more material ones to the editor or the author. A few have occurred by trusting to statements made at second hand. More by taking for granted what appeared on good authority to be facts. And still others by the extreme difficulty of getting at the exact truth, especially in minute matters. It has not been deemed necessary in all cases to give notice of the corrections. It is sufficient to say that whenever any discrepancy is to be observed between the impressions of the work, it may be inferred that those which have been the last printed contain the corrected reading.
