

## Book of Mormon: The Bigger Picture

BOOK of MORMON: THE BIGGER PICTURE isnt just a simple synopsis of stories from the Book of Mormon supplemented by interesting commentaries, but in the bigger scheme of things, it shows a much bigger picture of the Book of Mormon filled with an array of aids to help us reach a better over-all understanding of the Book of Mormon and pique our interest in this important book of scripture. It includes fascinating sidebars on the Hill Cumorah, on historical metal plates from ancient civilizations, on age-old Middle Eastern cultural oddities, and the fascinating Semitic linguistics that Joseph Smith couldnt possibly have been familiar with. It also contains pertinent special quotes from Joseph Smith, Oliver Cowdery, Parley P. Pratt, as well as many of our modern day prophets, and even Abraham Lincoln. It continually points out the many evidences that preclude Joseph Smith having fabricated this special Book.
