

The Eleventh Commandment: The Next Step in Social Spiritual Development

The Eleventh Commandment is a ground-breaking new code to bring humanity to a higher level of consciousness, and to increase the spiritual awareness of society. It can change the way we see and interact with each other on numerous levels. It brings us to the stage of understanding that humanity is responsible for its own spiritual maturity and that it is time to manifest a more elevated civilization. This new commandment guides us to: A deeper level of recognizing our spiritual identity and connection with God. Attain the great realization of perceiving the Divine within yourself and all beings. Transform our consciousness and the way we do business, politics, protect the environment, adjust our diet, and care for all. Distinguish the spiritual similarities between us all, which can bring about real peace in the world. Manifest Gods plan for the world and bring the spiritual dimension into our lives. Be a reflection of Gods love toward everyone. Open ourselves to greater peace and harmony within. The world is in need of a new direction in its spiritual development, and this 11th Commandment is given as the next phase to manifest humanity's most elevated potentials.
