

Who is Jesus : What is Christ? Vol 2

This book harmonizes the Gospel stories of the life of Jesus who takes into himself the spirit of Christ. By applying some very basic knowledge that the human being is a being of body, soul and spirit, it is not hard to identify what took place in the process of Jesus becoming Christ, but also how this affects what takes place in our own consciousness now. The details that emerge when we look at the original Greek, the language spoken at that turning point in time are often astounding. Why are we so surprised to hear someone say that they are put off by the way the Church explains Jesus Christ? The truth lives deep within each of us screams when upon hearing the shallow ideas coming from the pulpits around the world. Often these are nothing more than a sales pitch to fill the collection plate. You are a sinner, we can heal you. Nothing could be further than the truth. Sin, harmatia, means to miss the mark, to miss the bulls-eye. Can anyone else assist us to become a better marksman? This book is the second in a series that is currently being written.
