

Capture Gamma-Ray Spectroscopy and Related Topics: 10th International Symposium, Santa Fe, New Mexico, USA, 30 August - 3 September 1999 (AIP Conference Proceedings)

The 10th International Symposium on Capture Gamma-Ray Spectroscopy and Related Topics covers several broad areas of theoretical and experimental nuclear science. This is the 10th in a series of conferences that alternates between the US and Europe and takes place every three years. Although originally focused on low-energy neutron capture reactions, the conference has expanded to include many more areas of current interest to the nuclear science community. The conference addresses the major areas of nuclear spectroscopy, nuclear structure, nuclear astrophysics, nuclear data, fundamental physics, capture reactions and applications of nuclear science.
