

## Case Studies on Sexual Orientation and Gender Expression in Social Work Practice

At last? a casebook that focuses exclusively on sexual orientation and gender expression in relation to social work practice. The scenarios feature gay, lesbian, bisexual, and transgender (GLBT) individuals, couples, and families, and highlight GLBT issues in groups, organizations, communities, policy arenas, and research. The book also contains classroom exercises and suggested readings, making it a good resource for integrating GLBT content into the classroom. The casebook may be used as a complement to Morrow and Messinger's text, *Sexual Orientation and Gender Expression in Social Work Practice: Working with Gay, Lesbian, Bisexual, and Transgender People* (Columbia, 2006); on its own; or in conjunction with another textbook. The editors are award-winning teachers who have organized a casebook appropriate for use at the undergraduate or graduate level in practice, policy, human behavior and the social environment, research, and field education courses as well as in courses focusing specifically on GLBT clients.
