

The Pond: Where Love and Nature Met

This is a story of a retired veterinarian who moved to a mountain wilderness, to be alone with nature and animals. After moving in to his new cabin, he put in a pond to attract more animals to watch. Little did he know, this would bring about a huge change in his life. He had dreams of wolves and a girl that soon became a reality. The man, wolves and the girl became mysteriously woven together in a life with many twists, turns and problems. But wonderful!
