

The Veterinary Annual 33

Each year the Veterinary Annual reports on the very latest developments in clinical veterinary medicine and surgery, and has become established as one of the most essential additions to the reference shelf in both small and large animal practices. The 33rd Veterinary Annual again contains some highly topical articles by expert contributors which should be of interest to all veterinary practitioners. A wide range of issues in both large animal and small animal veterinary medicine are covered, with special reviews in this volume on hypertension and feline spongiform encephalopathy
