

If For Dreams

The story evolves around the Alessandro family; Meocasha a beautiful, finely bred woman of the aristocratic elite. Roland, a mature, rich bachelor, and Meocasha fell in love instantly. Out of this union two children were born, Paris and Travis Alessandro. As the marriage unravels we will introduce another son by the name of Dante Alessandro. Travis, their first born, an eccentric young artist, wealthy by his own means, due to a vast inheritance from his grandfather, which doesn't help his relationship with his father. There are many ways to describe the prince of temptation. But no one has properly described sugar and spice and everything nice, because sugar and spice isn't always good for you. That brings us to Paris, a beautiful enchantress, a woman who learned at an early age to live by her wits. Now we get to the long soldier, a man with a heart of gold who is young and really has not found his way, a gentleman in every aspect of the word, Dante.
