

Hitlers Silent Partners: Swiss Banks, Nazi Gold, And The Pursuit Of Justice

Vienna, 1939: If anything happens to us, I have money in Switzerland. These were among the last words that sixteen-year-old Renie Langs grandfather said to her before he perished in the Holocaust. Fifty years later, Renee and thousands like her are trying to find their rightful inheritances in Swiss banks -- and the world faces appalling revelations that neutral Switzerland acted as secret banker to the Nazis, abetting the German war against the Jewish people. Award-winning journalist Isabel Vincent unravels the labyrinthine story behind the headlines: how desperate men and women tried to secure their families futures by opening bank accounts in Switzerland; how the Nazis laundered, through Swiss banks, gold seized from the treasuries of occupied countries, much of it looted from the Jews; how the demands of international business, Swiss bank secrecy, and greed have conspired to prevent the truth from being disclosed for over half a century and still prevent restitution. Balanced, rigorous, and often heartbreaking, this major work also gives a human face to the statistics: a crusading Toronto lawyer; Edgar Bronfman, the passionate head of the World Jewish Congress; a Swiss parliamentarian determined to discover her countrys past; and Renie, a survivor waiting in the shadows for some small justice, already a little too late.
