

## Changing Fate

All Kate wants is to live. Battling cystic fibrosis is hard enough, dying from it is even harder. When her mom moves them closer to the hospital in the middle of her senior year, Kates determined to isolate herself saving everyone the trouble of befriending a dying girl. Its a difficult task when cheerful optimist Giana insists on being Kates friend. Kates resolve falters even more when curly-haired Kyler captivates her with his sweet melodies. As her emotional walls collapse, Kate realizes the people shes been pushing away may be the ones giving her a reason to live. But it might be too late.
