

Im Not Okay!: Rants, Raves & Life Observations from a Recovering Hypocrite

I must warn you: Im not okay! None of are, really. In this book I try to keep that upsetting and universal human truth front-and-center. Okay, another warning: I have un-medicated A.D.D. and this book totally reflects that! For the most part its filled--in no apparent order--with my totally random rants, raves, experiences, and observations about: life in general, my life, fatherhood, sin, salvation, and . . . well, everything, really. So if you love randomness (and who doesnt, really), buckle your seat belts as you begin your disturbing journey deeper into the madness that is my reality. :-//
