

Some Things You Always Wanted to Know About the Bible But Were Afraid to Ask!

Some Things You Always Wanted to Know about the Bible but were Afraid to Ask! was written for those searching for the most basic answers to Christianity: why Christians follow Christ, and the manner in which Christians are commanded to follow Christ. The world is full of denominations that profess to be Christian, yet ignore or completely distort the teachings of Christ, His father, and His disciples. If one chooses to be a member of the Baptist church, then he or she must learn how the Baptist church does things. If one decides to follow the teachings of Catholicism, then he or she must learn how the Catholic Church conducts her business and worship. And if one chooses to follow Christ, then one must understand what Christ and His disciples had to say about sin, following Christ, and His Church. One cannot be a Baptist and a Christian at the same time, simply because the Baptist church does not completely follow the teachings of Christ. There is no such thing as a Catholic Christian, because the Catholic Church does not completely follow the teachings of Christ. Nearly all denominations subscribe to at least some of the teachings of Christ, but many of them are discarded and never make it to the pulpit on Sunday morning.
