

Whitehall Palace in a Nutshell

MadeGlobals History in a Nutshell Series aims to give readers a good grounding in a historical topic in a concise, easily digestible and easily accessible way. In Whitehall Palace in a Nutshell, researcher and author Philip Roberts delves into the history of England's most important and significant lost building, a palace which had 2000 rooms and covered 23 acres in its heyday. Using his unprecedented connections, Philip has been able to gain access to the historical places in Whitehall Palace which still exist today, many of which are not open to public access. Philip Roberts, a member of the Maryrose Trust Information Group Team for well over 20 years, has a passion for Tudor re-enactment and educating people about history.
