

The M.S.I. Files: The Beginning

This story was written by a 7th grade 12 year old. It chronicles his imaginative adventures with his friends as the group of super spies of Master Spies Industries (M.S.I) while fighting against the evil spies F.E.A.R. and other sinister groups. The well written pages are filled with a humorous insight into the interaction of a child spy network. Our story shows the value of friendship and going to school.
