

Texas by Teran: The Diary Kept by General Manuel de Mier y Teran on His 1828 Inspection of Texas (Jack and Doris Smothers Series in Texas History, Life, and Culture (Paperback))

Winner, Finalist, Soeurette Diehl Fraser Translation Award, Texas Institute of Letters, 2001 Texas was already slipping from the grasp of Mexico when Manuel Mier y Teran made his tour of inspection in 1828. American settlers were pouring across the vaguely defined border between Mexico's northernmost province and the United States, along with a host of Indian nations driven off their lands by American expansionism. Teran's mission was to assess the political situation in Texas while establishing its boundary with the United States. Highly qualified for these tasks as a soldier, scientist, and intellectual, he wrote perhaps the most perceptive account of Texas people, politics, natural resources, and future prospects during the critical decade of the 1820s. This book contains the full text of Teran's diary which has never before been published, edited and annotated by Jack Jackson and translated into English by John Wheat. The introduction and epilogue place the diary in historical context, revealing the significant role that Teran played in setting Mexican policy for Texas between 1828 and 1832.
