

Keeping My Pack

Book 2 in the My Pack Series The guys struggle to keep themselves whole as they search for their lost Kitten. Tension is high and emotions are running out of control until they find help with an unexpected ally. The question is can they get there in time? Kitten is barely holding on to her sanity as she's held prisoner by Adam and the man claiming to be her uncle. With her spirits broken and her hope lost, can she hold on long enough for the guys to find her? Join Kitten and the guys on their journey, where they will all figure out what family really means, together. With the Ivaskov Pack watching their every move, and too many new faces to be able to tell who is friend and foe, life for Remy and his ragtag bunch of changed wolves is about to get more complicated. This is a Reverse-Harem story (one young woman for multiple men) Contains mature content
