

The Small Firm: An International Survey (Volume 16)

Originally published in 1983, this book reviews trends in the small-firm sector. The areas chosen cover the full spectrum of economic development. Part 1 deals with case studies from the USA, Japan, the UK, Australia, Germany and Sweden. In Part 2 Singapore, Philippines, Malaysia, Indonesia, Thailand and Africa are surveyed. In all cases the authors review the variety of definitions used for the small-firm sector and present such data as are available on the changing importance of the sector. This is followed by a review of the roles of small firms in each of the economies.
