

Lipoprotein Metabolism

Symposium on Lipoprotein Metabolism,
held in Heidelberg, September 10-13, 1975

Lipoprotein Metabolism - News Medical Lipoprotein particle metabolism can occur via the exogenous or endogenous pathway, depending whether the source of origin is dietary or hepatic. Both the exogenous and endogenous metabolic pathways of lipoproteins are outlined below. Apolipoprotein B-100 is important in the **Regulation of lipid and lipoprotein metabolism by PPAR activators**. lipoprotein metabolism is the process by which hydrophobic lipids, namely triglycerides and cholesterol, are transported within the interstitial fluid and plasma. **Lipoprotein metabolism - SlideShare** - 8 min - Uploaded by PrakashLipoprotein Metabolism The handling of lipoproteins in the body is referred to as lipoprotein **Lipoprotein metabolism**. - **NCBI Key Receptors in Lipoprotein Metabolism**.
