

Metawhore: My Cock Dont Talk Politics

Metawhore is without doubt the most controversial autobiography of 2012. The author cleverly fuses a thoroughly entertaining life story with thought provoking philosophy. Buried within the pages is a mirror that consistently reflects the sub-conscious of the reader, asking questions of the self usually considered taboo? Humorous, morally challenging, honest, unapologetic and wholly addictive, Metawhore is not just a compelling read but arguably the most sexually insightful book of the decade.
