

Moscow: Living and Learning on the Palouse (ID) (Making of America)

Centered in the glorious Palouse, a richly fertile area, the small Idaho town of Moscow was once home to the Nez Perce, who introduced the famous spotted Appaloosa horses. The intimate Moscow feel inspired by current residents has persisted since the original homesteaders settled here, a place they called Paradise Valley. Resisting the anonymity of many rural agricultural towns, Moscow proudly claims an educational, civic, commercial, and cultural reputation far beyond a town of its size, a monument to the people who elevated the community.
