

Treehouse Tales

In these three short stories Anne Isaacs again shows her gift for vivid images, wry humor, and memorable characters. The stories relate the adventures of three 1880s Pennsylvania farm children in their family treehouse, which serves as a refuge, a lookout post, and a frightening dragons lair. Lloyd Blooms art, suffused with the shimmer of sunlit foliage, beautifully captures the stories rural setting and spirit of romance. Whether heard aloud or read alone, these humorous, lighthearted tales that so artfully mingle desire and possibility, solitary experience and familial togetherness, will speak through an earlier period of our history to Americas children today.
