But then she stumbles across something even she finds incredible: veterinarian Ram Montgomery. A man with reflexes so lightning quick he can take down three armed opponents, with healing power at the touch of his fingertips, and with eyes that send a shot of arousal straight through her body. Uneasy allies on the track of thugs smuggling exotic animals into the country, Natalie and Ram begin to sense a more dangerous ring at work in the city. Despite her mistrust of the magic building between them, Natalie has to put her faith in Ram or become another victim of the cults terrifying secret mission.
