

Poems A Mothers Heart

This book is a token of love and appreciation that parents must get for their children. It will not only strengthen parent-child relationship but will make children realise how much they mean to their parents, how much they are wanted and how precious they are. Children need to know that despite their young age they give their parents a feeling of fulfillment and that they will forever be found to be irreplaceable. On the other hand, children need to know that the world looks at them with the eyes of hope, we see them we see the future. This book is intended to make them realise that GOD created them for a reason and that reason will only be revealed at the right time. Furthermore the book is making them aware of being careful of the friends they choose and the importance of opening up to their parents. I am a mother of three and my childrens presence in my life has brought up the best in me, because of my children I have learned to love more, I desire happiness and safety for all children around the world. I feel that I am responsible for every child despite race, colour or origin. Children deserve nothing else but the best, let us work together in making this world a better place for them.
