

A Country Divided

Our country is going the wrong way! So rings the battle cry of James Miller, who sets out to diagnose the symptoms of our national disorder and offer a prescription to cure the illness before the condition reaches a terminal stage. Congress, taxes, the president, and corporations all fall under the careful scrutiny of Miller's sharp eye and common sense approach. What he has to say has important lessons for every citizen to heed to restore the country to good health and prosperity.
