

## Ultimate Dilemma: Forgive Me Lord

Preston Owens, a Baptist minister, divorces his wife of twelve years not revealing to his congregation or family the true reason why. Soon after the divorce is finalized Preston weds Monique Cheri Anderson, a local news reporter. But because of the secret not being told that caused the divorce, people form their own opinions about Preston and Cheri's actions which sounds much better than the truth. Because of the rumors, Preston and Cheri are shunned by their families. So they flee to another state in an effort to rebuild their lives together. But when Preston is asked to take a position as assistant pastor of a church, the need for the past to be revealed becomes more important than the people the secret protects. Soon everyone will learn things are not always as they appear to be.
