

## Religion in Essence and Manifestation (Princeton Legacy Library)

In this book van der Leeuw discusses the horizontal path to God and the vertical paths descending from God and ascending to Him. If God Himself appears, it is in a totally different manner, which results not in intelligible utterance, but in proclamation; and it is with this that theology has to deal. Originally published in 1986. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press.
