

The Final Chapter

The Final Chapter: Adds a spiritual dimension to processing grief and trauma. Shows others experiencing psycho-spiritual crisis they are not alone and that they can find the courage to seek out their own Truth. Illuminates the pathway to self-awareness, to discovering deeper meaning and spiritual understanding. Offers a vehicle for maneuvering through immense cognitive and spiritual change; for learning to discriminate between reality and illusion; and, for adjusting to dual realities. Provides a roadmap for the pitfalls, fears, and challenges on the path of transition. Presents a transformational process for psycho-spiritual change. Outlines this process in stages to delineate the experience step by step. Expands upon Near-Death-Experience with details on Death-Related-Experience. Redefines perceptions toward viewing death as a beginning instead of an ending.
