

Revolution from Abroad: The Soviet Conquest of Poland's Western Ukraine and Western Belorussia

Jan Gross describes the terrors of the Soviet occupation of the lands that made up eastern Poland between the two world wars: the Western Ukraine and Western Belorussia. His lucid analysis of the revolution that came to Poland from abroad is based on hundreds of first-hand accounts of the hardship, suffering, and social chaos that accompanied the Sovietization of this poorest section of a poverty-stricken country. Woven into the authors exploration of events from the Soviets German-supported aggression against Poland in September of 1939 to Germanys attack on the Soviet Union in June 1941, these testimonies not only illuminate his conclusions about the nature of totalitarianism but also make a powerful statement of their own. Those who endured the imposition of Soviet rule and mass deportations to forced resettlement, labor camps, and prisons of the Soviet Union are here allowed to speak for themselves, and they do so with grim effectiveness.
