

Los Angeles Art Deco (Images of America)

Art Deco made its formal appearance in Paris at the 1925 LExposition Internationale des Arts Decoratifs et Industriels Modernes, a showcase for art, architecture, and design that promoted progress, modernity, and the present. The greatest export from this exhibition was a style that has since been recognized as one of the great design movements of the 20th century. Art Decos growing recognition coincided with the growth of Los Angeles as the entertainment capital. Between world wars, the citys architecture sprouted characteristic signs of Art Deco: the interplay of vertical and horizontal features, geometric shapes, use of exotic and modern materials, as well as simplified streamlined forms. This volumes marvelous collection of images celebrates Los Angeless Art Deco heritage, showcasing such structures as Bullocks Wilshire, Sunset Tower, the Oviatt Penthouse, the Wiltern and Pantages Theatres, and many, many more.
