

Finding Her Voice

Tavis Malcolm acts his way right off the screen and into everyday life. As one of Hollywood's most irresponsible playboys, he's definitely the wrong choice as a guardian for his three-year-old niece. Finding a nanny on short notice proves to be more difficult than tracking down his missing sister. Meredith Faith was content, for the most part, teaching Sunday school at her father's church. That is until he tried to blackmail her into marrying a snake oil salesman. Running away just might be the best thing she ever did for herself, if she can elude the IRS and her father's reach, that is. Ending up in Los Angeles seems like a dream come true, until she accepts a job as a nanny for her dream guy, Tavis Malcolm. Unfortunately, he's not all her fantasies are cracked up to be. Finding Her Voice is a story of reaching deep, really deep, inside yourself, to find the person you were always meant to be, regardless of who you work for.
