

George Tyrrells Letters (Classic Reprint)

Excerpt from George Tyrrells Letters To many the name of George Tyrrell is so familiar that any account of his life may seem superfluous - to many, but not to all. Furthermore, the years of stress through which the world has lately passed have dulled the memory of many events that stood out conspicuously in times when thought was not at a discount and action all that signified. The story of the Modernist movement was hardly ended before the Great War began; a crisis during which deeper and more abiding interests were inevitably suspended in favour of questions materially urgent and imperative. But even were Modernism generally remembered, Modernism is far from being all in the life of Tyrrell. Indeed it may be said that Modernism did a certain amount of injustice to his memory, in so far as it overshadowed other sides of his work and his character. He was a Modernist, and he gave a portion of his life to the prosecution of that movement; but he was other things besides - he was a man of unusual spiritual insight; of moral acumen; of keen human sympathy and psychological skill; of literary power and perception; of abounding humour and fun. He had been a missionary and a confessor before he was a writer; he was the friend of many for whom his orthodoxy or unorthodoxy had little importance.
