

Disciples of the Street: The Promise of a Hip Hop Church

What would cause a small, 140-year-old, Episcopal Church in the heart of the South Bronx to begin offering hip-hop services? How would the church, both locally and nationally, react? Utilizing scores of interviews and months of research, *Disciples of the Street* is the story of one church's engagement with hip-hop religion, the conflicts that ensued, and the resulting birth of something much larger. Following that small hip-hop religious movement from its inception in the summer of 2004 through its building of a national profile, in a story that moves from the birthplace of rap to youth detention facilities in Virginia to the New South and all manner of places in-between, Gutierrez looks deeply into the questions of what hip-hop has to say to the traditional church and what the church might say to hip-hop culture. *Disciples of the Street* is a compelling story well told and the definitive look at the issues facing a movement that's growing in popularity and gaining traction around the country.
