

Structural Health Monitoring 2013, a Roadmap to Intelligent Structures: Proceedings of the Ninth International Workshop, September 10-13, 2013, Stanford University

This book and searchable CD-ROM form a guide to research and technologies that contribute to improving structural health monitoring (SHM), including actuators, multifunctional materials, networks and systems, signal processing, prognostics/CBM+, validation, certification and more. Special attention is given to SHM in military aircraft, civil infrastructure, space vehicles, and medical applications.
