

Collected Works, Vol. 9 (Classic Reprint)

Excerpt from Collected Works, Vol. 9(Interpolation from Notes.) I now proceed to trace, in as few words as possible, the outline of that practical doctrine, concerning the freedom of trade, which it was the great scope of Mr. Smiths work to establish; combining together, in one point of view, various speculations, which his comprehensive plan necessarily led him to state under different titles.I have observed, in my Account of the Life and Writings of Mr. Smith, that the great and leading object of Mr. Smiths speculations is to illustrate the provision made by nature in the principles of the human mind, and, in the circumstances of mans external situation, for a gradual and progressive augmentation in the means of national wealth, and to demonstrate, that the most effectual plan for advancing a people to greatness, is to maintain that order of things which nature has pointed out, by allowing every man, as long as he observes the rules of justice, to pursue his own interest in his own way, and to bring both his industry and his capital into the freest competition with those of his fellow-citizens.About the PublisherForgotten Books publishes hundreds of thousands of rare and classic books.
