

Magickeepers: The Eternal Hourglass

Nick Rostovs life is borderline embarrassing. His dad is well known as the worst magician in Las Vegas. Nick hasnt had a real friend in years. And his report card is not good at all. One F. Two Cs. One B-minus. And an A. In Health. But on Nicks thirteenth birthday his life changes forever. Awaking on the top floor of the world famous Winter Palace Hotel and Casino, he meets, for the first time, his extended family. A family gifted with the power of magic, real magic, exiled from their native Russia, they now hide in plain sight among the neon lights of the Casino. All members of the family are powerful magicians, but Nick is unique. Nick has the sightthe ability to see into the past. His gift is the only way to unravel the mystery of the Eternal Hourglass, a magic artifact so strong it can even stop time. But the familys enemies will stop at nothing to get it. Nick knows that he is in for the adventure of a lifetime if he survives. The one and only Harry Houdini was killed for it, the most powerful magicians have battled for centuries to retrieve it, and even the Ancient Pharaohs feared its power. What would you do for an hourglass that stopped time?
