

## Indians in Oklahoma (Newcomers to a new land)

The Indians in Oklahoma, a survey of the sixty-seven tribes residing in the state, explains the colonizing process that populated Indian Territory (the future Oklahoma) with American Indians from all parts of the United States during the nineteenth century and interprets the striking cultural diversity of the Indian communities thus formed. The author separates the Native American experience in Oklahoma into four periods. This book is one of a series entitled Newcomers to a New Land which analyzes the role of the major ethnic groups that have contributed to the history of Oklahoma.
