Excerpt: ... through the incantations of warfare, and assuming the same colossal shape it had worn before, though wealth as well as birth was now the secret of its cruelty and its impunity. No laws will now prevent the rich from becoming, like the Patricians of old, the sovereign class in Rome. Nor was it merely in such respects as these that the Roman institutions began to show the changes they could not escape in the midst of the influences they seemed to fear, as well as of the crimes they certainly allowed. The discovery of the secret rites of the Bacchanalia,⁸¹ the foulest orgies that could be practised even under heathenism, was equivalent to the discovery of the corruptions to which the last generations of the ancient world, especially in its central point at Rome, were doomed. The shameful mysteries were instantly suppressed; but it was impossible to return to the comparatively simple observances of the elder times; and when the books of Numa, or some so styled, were found beneath the Janiculum, they were publicly burned by order of the Senate, lest the instructions they contained should subvert the few remaining solemnities of religion by exposing their degeneracy.⁸² It was harder to resist the innovations of the present than to defy the associations of the past; and though the philosophers who came as ambassadors from Athens were decidedly, but politely, dismissed by the Senate, because their eloquent learning was attracting too many hearers,⁸³ and though, again, some foreign priests were more unceremoniously ordered to depart from Rome and out of Italy,⁵⁴ the very air men breathed was fraught with another life than had touched the minds of a former age.
