

## The Renovation

Katherine Gardiners shock and humiliation at being deserted by her husband, Charles, not only rings true, but for many women echoes a real personal experience. Some women find the strength to leave it behind them and build a new and happier life. Others find it possible to repair the marriage and worthwhile to rebuild the broken trust. Whatever life has brought them most women will understand and sympathize with Katherine's courageous struggle to earn her own way and face her mistakes honestly.
