

## The Revolutionary and Napoleonic Era, 1789-1815 (Classic Reprint)

Preface. of MM. Sorel, A ulard, Vandal and others have added largely to our knowledge of the epoch, especially that portion of it in which Napoleon is the principal figure. The general tendency of recent French enquiries has been to some extent to redress the balance in favour of the great conqueror. The historian must, however, duly discount the brilliant romancings of Marbot, the trustful confidences of Mene Val, and the quaint attempts of M. Le Vyto depict his hero as a good-natured bourgeois in private life. Fortunately, the other side of the picture has been set forth in the sober and authentic narratives of Chaptal, Macdonald and Pasquier. Besides working through these and many other French Memoirs, I have endeavoured to enter into the general spirit of the age by studying the chief histories, memoirs and biographies relating to other European lands, especially Germany. The perusal of our Foreign Office records has also convinced me that much more may be urged in defence of British policy than has hitherto been conceded. My best thanks are due to the Rev. Dr Marchand, of A ngers, and Signor Lombroso, of Rome, for information respecting French and Italian affairs respectively; also to MrA. J. Grant, and Mr J. W. Headlam, both of King s College, Cambridge, for several valuable suggestions; but, most of all, to the Editor of the series, Dr Prothero, for the care which he has bestowed alike on multifarious details and on questions involving a wide historical survey. J. H. R. August, 1894. For the second edition the suggestions of critics have been carefully considered and in some cases adopted. J. H. R.
