

The Works of Alexander Hamilton, Vol. 6 (Classic Reprint)

Continued) ONO. XXIV 1795-
HOWEVER uniform may have been the law of Europe in relation to the colonial establishments, no pains have been spared to create an opinion that France has been guided by a more liberal policy than the other colonizing powers, and that the regulations of her colony trade were essentially dissimilar from theirs; moreover, that her disinterestedness was so great, that she not long since proposed to our Government to establish, by treaty, a trade between us and her West India colonies equally free with that which prevails in her own intercourse with them. The object of these attempts is readily perceived. (Typographical errors above are due to OCR software and do not occur in the book.)
