

Nanotechnology 2008:: CD-ROM (v. 1-3) (v. 1-4)

These proceedings from the 2008 NSTI Nanotech conference provide the most prestigious forum in the world for leading nano scientists. Now available on CD-ROM, the papers from the three-volume set create the most authoritative and comprehensive compendium available across all of nanotechnology. Exploring cutting-edge research and applications, this CD includes the latest information on industrial development, investments, and ventures.
