

Belle (The Daughters of Allamont Hall Book 2)

A traditional Regency romance, drawing room rather than bedroom. Mr William Allamont rules the lives of his six unmarried daughters with strict regularity. Every hour has its appointed task, every day its routine, lest the girls fall into idleness and frivolity. When he dies unexpectedly, his will includes generous dowries for the sisters, but only on condition that they marry in the proper order, the eldest first. Now that Amy is contentedly betrothed, it is Belles turn to find a husband. Being the plain one of the family, she has no wish to parade herself at balls and card parties, dangling her new dowry in front of reluctant suitors. As soon as Amy is married, therefore, she intends to accept the offer of her cousin, James, a pragmatic but loveless choice on both sides. Mr Burford is the village curate, enchantedly in love with the youngest Allamont sister, Hope. His income is not enough to support a wife, but he is happy to wait, perhaps for years, before he dares to contemplate a betrothal. But fate and poetry and the gentle tendrils of friendship combine to overturn these careful plans, and throw their lives into confusion.
